

National Tracking Poll #2304046
April 10-13, 2023

Crosstabulation Results

Methodology:

This poll was conducted between April 10-April 13, 2023 among a sample of 2208 Adults. The interviews were conducted online and the data were weighted to approximate a target sample of Adults based on age, gender, race, educational attainment, region, gender by age, and race by educational attainment. Results from the full survey have a margin of error of plus or minus 2 percentage points.

Table Index

1	Table MCHE1_1: <i>Generally speaking, how much do you trust the following? The U.S. Supreme Court</i>	5
2	Table MCHE1_2: <i>Generally speaking, how much do you trust the following? The Food and Drug Administration (FDA)</i>	8
3	Table MCHE1_3: <i>Generally speaking, how much do you trust the following? Federal judges</i>	11
4	Table MCHE2_1: <i>Medication abortion is a two-drug combination that terminates pregnancy within the first 10 weeks. The combination can be taken at home or any location, and has been approved by the Food and Drug Administration (FDA). Medication abortions now account for more than half of abortions in the U.S. Do you support or oppose people in your state having access to the following measures? Surgical abortion</i>	14
5	Table MCHE2_2: <i>Medication abortion is a two-drug combination that terminates pregnancy within the first 10 weeks. The combination can be taken at home or any location, and has been approved by the Food and Drug Administration (FDA). Medication abortions now account for more than half of abortions in the U.S. Do you support or oppose people in your state having access to the following measures? Medication abortion</i>	17
6	Table MCHE3_1: <i>Generally speaking, do you have a favorable or unfavorable opinion of the following? Mifepristone</i>	20
7	Table MCHE3_2: <i>Generally speaking, do you have a favorable or unfavorable opinion of the following? Misoprostol</i>	23
8	Table MCHE3_3: <i>Generally speaking, do you have a favorable or unfavorable opinion of the following? Surgical abortion</i>	26
9	Table MCHE3_4: <i>Generally speaking, do you have a favorable or unfavorable opinion of the following? Medication abortion</i>	29
10	Table MCHE3_5: <i>Generally speaking, do you have a favorable or unfavorable opinion of the following? Plan B morning-after pill</i>	32
11	Table MCHE4_1: <i>And based on what you know, how safe do you think each of the following are? Mifepristone</i>	35
12	Table MCHE4_2: <i>And based on what you know, how safe do you think each of the following are? Misoprostol</i>	38
13	Table MCHE4_3: <i>And based on what you know, how safe do you think each of the following are? Surgical abortion</i>	41
14	Table MCHE4_4: <i>And based on what you know, how safe do you think each of the following are? Medication abortion</i>	44
15	Table MCHE4_5: <i>And based on what you know, how safe do you think each of the following are? Plan B morning-after pill</i>	47

16	Table MCHE5_1: <i>How much have you seen, read, or heard about the following? A ruling from a federal judge in Texas suspending the Food and Drug Administration’s (FDA) approval of mifepristone, a drug used for medication abortions</i>	50
17	Table MCHE5_2: <i>How much have you seen, read, or heard about the following? A ruling from a federal judge in Washington that blocks the FDA from making any changes to accessing mifepristone</i>	53
18	Table MCHE5_3: <i>How much have you seen, read, or heard about the following? Attorney General Merrick Garland announcing that the Justice Department would appeal the Texas decision suspending the FDA’s approval of mifepristone</i>	56
19	Table MCHE6: <i>Generally speaking, do you approve or disapprove of federally appointed state judges having the power to overturn FDA approvals to sell medications?</i>	59
20	Table MCHE7: <i>Based on what you know, do you support or oppose the decision from a federal judge in Texas to suspend the Food and Drug Administration’s (FDA) approval of mifepristone, a drug used for medication abortions?</i>	62
21	Table MCHE8: <i>As you may know, if the ruling suspending the FDA’s approval of mifepristone stands, then the medication will effectively be unavailable in the United States. Currently, mifepristone is typically prescribed with misoprostol to induce a medical abortion during the first 10 weeks of pregnancy. If mifepristone is unavailable, health care providers will still be able to prescribe misoprostol. However, studies show that when misoprostol is taken on its own, it is less effective at terminating pregnancies and may cause unintended side effects. Knowing this, once again do you support or oppose the decision from a federal judge in Texas to suspend the Food and Drug Administration’s (FDA) approval of mifepristone?</i>	65
22	Table MCHE9_1: <i>How much do you trust each of the following to make decisions about abortion access in the United States? The U.S. Supreme Court</i>	68
23	Table MCHE9_2: <i>How much do you trust each of the following to make decisions about abortion access in the United States? The Food and Drug Administration (FDA)</i>	71
24	Table MCHE9_3: <i>How much do you trust each of the following to make decisions about abortion access in the United States? Federal judges</i>	74
25	Table MCHE10: <i>As you may know, checks and balances ensure separate branches of government are empowered to prevent unilateral actions by other branches and that all branches share power. Based on what you know about the Texas judge’s decision, which of the following is closest to your opinion?</i>	77
26	Table MCHE11: <i>Which of the following is closest to your opinion, even if none are exactly right?</i>	80
27	Table MCHE12_1: <i>Generally speaking, to what extent, if at all, are you concerned about each of the following? Total or near-total abortion bans taking effect in about half of the states in the U.S.</i>	83
28	Table MCHE12_2: <i>Generally speaking, to what extent, if at all, are you concerned about each of the following? People turning to unsafe practices to terminate their unwanted pregnancies, putting their own personal health at risk</i>	86

29	Table MCHE12_3: <i>Generally speaking, to what extent, if at all, are you concerned about each of the following? States using the precedent of overturning Roe v. Wade to challenge other rights, such as same-sex marriage</i>	89
30	Table MCHE12_4: <i>Generally speaking, to what extent, if at all, are you concerned about each of the following? People not being able to access abortion services near where they live</i>	92
31	Table MCHE12_5: <i>Generally speaking, to what extent, if at all, are you concerned about each of the following? Reproductive health and abortion providers in states where abortion remains legal becoming overwhelmed and their resources strained</i>	95
32	Table MCHE12_6: <i>Generally speaking, to what extent, if at all, are you concerned about each of the following? People having to continue unwanted pregnancies</i>	98
33	Table MCHE12_7: <i>Generally speaking, to what extent, if at all, are you concerned about each of the following? Increased pressure on social welfare programs to support parents who were unable to end their pregnancies</i>	101
34	Table MCHE12_8: <i>Generally speaking, to what extent, if at all, are you concerned about each of the following? Increased maternal health complications and deaths in the U.S.</i>	104
35	Table MCHE12_9: <i>Generally speaking, to what extent, if at all, are you concerned about each of the following? Parents not being able to access paid parental leave at work</i>	107
36	Table MCHEdem1_1: <i>Have you or someone you know ever accessed the following health care services? Abortion care services</i>	110
37	Table MCHEdem1_2: <i>Have you or someone you know ever accessed the following health care services? Reproductive health care services</i>	113

Table MCHE8: As you may know, if the ruling suspending the FDA’s approval of mifepristone stands, then the medication will effectively be unavailable in the United States. Currently, mifepristone is typically prescribed with misoprostol to induce a medical abortion during the first 10 weeks of pregnancy. If mifepristone is unavailable, health care providers will still be able to prescribe misoprostol. However, studies show that when misoprostol is taken on its own, it is less effective at terminating pregnancies and may cause unintended side effects. Knowing this, once again do you support or oppose the decision from a federal judge in Texas to suspend the Food and Drug Administration’s (FDA) approval of mifepristone?

Table MCHE8: As you may know, if the ruling suspending the FDA's approval of mifepristone stands, then the medication will effectively be unavailable in the United States. Currently, mifepristone is typically prescribed with misoprostol to induce a medical abortion during the first 10 weeks of pregnancy. If mifepristone is unavailable, health care providers will still be able to prescribe misoprostol. However, studies show that when misoprostol is taken on its own, it is less effective at terminating pregnancies and may cause unintended side effects. Knowing this, once again do you support or oppose the decision from a federal judge in Texas to suspend the Food and Drug Administration's (FDA) approval of mifepristone?
